Product name:	Product code:
Student Kymograph with Recording Drum	CMI-NP-0005

Description

A clockwork or motor driven kymograph with smoked paper drum used to record contractions of isolated uterus and intestine on a moving paper surface in student pharmacology experiments.

Technical specification

Weight	Approx. 6 kg

Standard Accessories

- Paper rolls
- Stylus lever

The kymograph carries a metal drum that rotates at selectable speeds while a lever writes the tissue response on smoked or paper-covered surface. It is a standard item for classical pharmacology and physiology practicals.

Features
