

Product name:
Spring Unit

Product code:
CIVIL-EGY-121-0005

Description

Spring Unit

Technical specification

The steel shaft carries a clock spring with a free wheel device, winding ratchet and a 56mm diameter aluminium 'V' pulley.

conversion of potential energy in a wound-up spring to electrical energy.

This could also be used to wind a weight on a cord showing the change from potential energy to kinetic, and back, in the raised weight.

Supplied complete with driving belt.

All units have a base measurement of 165 x 100mm and have 4mm socket terminals where appropriate.

The Energy Transfer Kit consists of a number of separately available units which enable the user to show conversions of one form of energy to another in a variety of different ways.
