Product name:	Product code:
Microprocessor BOD Incubator 150 Litre	CMI-NP-0009

Description

A refrigerated B.O.D. incubator with microprocessor control and stainless steel interior for five day biochemical oxygen demand tests at 20 deg C and other low temperature incubation work.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Shelves (3 nos.)
- Power cord

This cooling incubator combines a compressor and heater to hold temperatures below ambient. It is used in water and wastewater laboratories for BOD tests, seed storage, germination and microbial culture.

Features

- Stainless steel inner chamber with rounded corners
- Compressor cooling with balanced heater
- Microprocessor PID controller with digital display
- Inner glass door and adjustable shelves

Technical Specifications

Capacity	150 litres
Temperature range	5 deg C to 60 deg C
Accuracy	+/- 1 deg C
Controller	Microprocessor PID, 0.1 deg C resolution
Interior	SS 304 with 3 removable shelves
Exterior	Powder coated MS
