Product name:	Product code:
Class I Biosafety Cabinet Open Front	CMI-NP-0011

Description

A Class I open front biosafety cabinet that draws room air inward past the operator and exhausts it through a HEPA filter, protecting the user when handling low to moderate risk agents.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Spare pre-filter

Air enters the front opening and leaves through a HEPA filter, so the worker and environment are protected, though the sample is not. It is used for enclosing equipment such as centrifuges and for basic microbiological handling.

Features
