Product name:	Product code:
Programmable COD Reactor with Timer 16 Vials	CMI-NP-0019

Description

A 16 vial programmable COD reactor with preset digestion programmes at 150 deg C and 100 deg C, used with ready COD reagent vials and photometers in water quality testing.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Vial rack

Preset programmes for COD, total phosphorus and total nitrogen digestion make it flexible. A transparent safety lid protects users from hot vials and reagent splashes.
