Product name:	Product code:
COD Test Kit for Water and Wastewater	CMI-NP-0020

Description

A field and classroom COD test kit with premixed digestion reagents, vials and colour reference for estimating chemical oxygen demand in water and wastewater samples.

Technical specification

Storage	Cool dry place

Standard Accessories

- Pipettes
- Colour chart

The kit contains sealed reagent vials, pipettes and a simple colour chart. It is ideal for students and field engineers who need quick approximate COD values without a full laboratory.

Features

NAUGRA®
