Product name:	Product code:
COD and TKN Combined Digestion Unit	CMI-NP-0021

Description

A combined digestion unit with heating block for both COD digestion and Kjeldahl nitrogen digestion, used in universities and quality control laboratories for water and food analysis.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Kjeldahl tube rack
- COD vial rack

Interchangeable racks let the same heater serve both COD vials and Kjeldahl tubes. The compact design saves bench space and supports teaching of two key analytical methods.

Features

- Two-block digestion unit
- Interchangeable racks for COD and Kjeldahl
- Programmable temperature up to 450 deg C
- Fume manifold connection

Technical Specifications

Positions	6 Kjeldahl or 12 COD tubes
Temperature range	Ambient to 450 deg C
Control	Digital PID
Accuracy	+/- 1 deg C
Block	Aluminium
Timer	0 to 999 minutes
