

Product name:
Double Gel Electrophoresis Apparatus

Product code:
CIVIL-ELO-128-0006

Description

Double Gel Electrophoresis Apparatus

Technical specification

The system includes two casting gel trays and six 12-well forming combs and patch cords. The leak-free, one-piece moulded chamber is constructed from durable, clear acrylic and has pure platinum electrodes for superior conductivity and longevity. Specially designed casting trays hold melted agarose without the use of tape or snap-on ends. Built-in safety features prevent the student from using the chamber unless the lid is locked in place. Wells can be formed at the end or the centre of the gel. Tray size: 100mm (L) x 75mm (W) Tank size: 155mm (L) x 88mm (W) x 62.5mm (H).
