Product name:	Product code:
Clean Air Bench with Gas Tap and Service Outlet	CMI-NP-0025

Description

A laminar clean air bench fitted with gas tap, electrical outlet and water-proof stainless steel top, used in microbiology laboratories where flame sterilisation and equipment use are needed.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- UV lamp
- Gas tubing

Service fittings inside the work area allow burner use and small instruments to be plugged in without leaving the clean zone. The unit gives ISO Class 5 working conditions.

Features
