Product name:	Product code:
Chest Deep Freezer Minus 30 Deg C	CMI-NP-0032

Description

A top opening chest deep freezer with 200 litre capacity and minus 30 deg C temperature, used for storing samples, reagents, media and blood components in laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Storage baskets (2 nos.)

The lid opens upward and cold air stays in the chamber, so it uses less power than upright models. Baskets divide samples, and a lock keeps stored material secure.

Features
