NAUGRA®

Product name:	Product code:
Soldering Station with Digital Display	ELC-BEE-0002

Description

Soldering Station with Digital Display

Technical specification

Features:

- Adjustable temperature and a variety of available tips.
- Grounded tip for soldering static sensitive devices.
- Overheat protection with closed loop temperature control.
- Improved circuit design for greater temperature stability.
- Heat resistant soldering iron cord.
- Built-in tray with cleaning sponge.

Specifications:

- Power Consumption: 48 W
- Temperature: 160 - 420 0C
- Voltage: 220 - 240 VAC/50 Hz
- Included with 3pcs replacement tips
