Product name:	Product code:
Programmable Dry Block Digester 12 Place	CMI-NP-0044

Description

A programmable 12 place dry block digester with multi-step temperature ramps for digestion of food, feed and soil samples in analytical and testing laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Tube rack

Several temperature steps can be stored, so samples can be heated gently at first and then brought to full digestion temperature. This reduces foaming and spattering.

Features

NAUGRA®

- Programmable multi-step heating
- 12 tube aluminium block
- LCD display
- Safety lid and sensor

Technical Specifications

Positions	12 tubes
Programme steps	Up to 9
Temperature range	Ambient to 450 deg C
Accuracy	+/- 1 deg C
Display	LCD
Block	Aluminium alloy
