Product name:	Product code:
Twenty Place Aluminium Block Digester	CMI-NP-0045

Description

A 20 place aluminium block digester with digital control up to 450 deg C for acid digestion of soil, plant and food samples before Kjeldahl nitrogen or metal analysis.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Tube rack
- Fume manifold

The block heats test tubes uniformly without direct flame and is safer than hot plate digestion. It is used in agricultural and food laboratories along with a fume manifold.

Features

- Aluminium heating block with 20 holes
- Digital PID control up to 450 deg C
- Over-temperature cut-off
- Exhaust manifold connection

Technical Specifications

Positions	20 tubes
Tube size	250 ml Kjeldahl or 100 ml digestion tubes
Temperature range	Ambient to 450 deg C
Accuracy	+/- 1 deg C
Timer	0 to 999 minutes
Block	Anodised aluminium
