Product name:	Product code:
High Temperature Industrial Oven 450 Deg C	CMI-NP-0046

Description

A high temperature industrial oven with ceramic fibre insulation and forced air circulation reaching 450 deg C for heat treatment, ageing and curing of materials.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Shelf (2 nos.)

Heavy duty heaters and a high temperature blower provide uniform heating for polymers, paints, metals and electronic parts. A separate cut-out protects against overheating.

Features

NAUGRA®

- Up to 450 deg C operation
- Ceramic fibre insulation
- High temperature air circulation
- Independent over-temperature protection

Technical Specifications

Temperature range	Ambient + 50 to 450 deg C
Inner size	450 x 450 x 450 mm
Accuracy	+/- 3 deg C
Controller	Digital PID
Chamber	SS 310 or SS 304
Heater	Nichrome, 3 kW
