Product name:	Product code:
PCR Machine + Accessories	NUGBLY0099

Description

PCR Machine + Accessories

Technical specification

PCR Machine:
Store at room temperature. Platform: Thermal Cycler
Format: 96-well plate, 0.2 ml tubes
Capacity: 1 x 96-well x 0.2 ml tubes PCR tubes and 96 well plates High Throughput Compatibility: High Throughput-Compatible Weight: 6.1 kg (13.5 lb)
Dimensions: 43 x 26 x 20 cm (W x H x D) Block Format: Non-Interchangeable Product Size: 1 instrument
Green Features: Energy efficient, Fewer resources used, Less waste Reaction Speed: Standard
Program Features: Program overwrite protection, Auto re-start (after power outages) Display Interface: Buttons
Temperature Range: 4.0-99.9 °C Shipping Condition: Room Temperature
Temperature Accuracy: ±0.25°C (35°C to 99.9°C) Reaction Volume Range: 10-100 µl
Temperature Uniformity: ±0.5°C (30 sec after reaching 95°C)
