Product name:	Product code:
Potentiometric Auto Titrator with Stirrer	CMI-NP-0059

Description

A potentiometric titrator with motorised burette and magnetic stirrer for automatic acid base, redox and precipitation titrations with endpoint detection by pH or mV.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- pH electrode
- Titration beaker

It adds titrant at a controlled rate and finds the endpoint from the electrode signal. It reduces operator error in routine analysis of water, food and chemical samples.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Motorised burette drive
- Endpoint and equivalence point detection
- Magnetic stirrer
- Method memory and result display

Technical Specifications

Burette	10 or 20 ml motorised piston
Resolution	0.01 ml
Measurement	pH -2 to 16, mV +/- 1999
Accuracy	+/- 0.01 pH
Stirrer	Magnetic, adjustable speed
Display	LCD with keypad
