Product name:	Product code:
Four Place Jar Test Flocculator Digital	CMI-NP-0067

Description

A four place digital jar test flocculator for coagulant dose optimisation in water treatment, with timer and speed display for classroom and field laboratory use.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Beakers (4 nos.)

Four beakers run together under one controlled speed, so alum or polyelectrolyte doses can be compared easily. The unit is compact and suitable for colleges.
