Product name:	Product code:
Square Jar Beaker Set with Sampling Tap	CMI-NP-0071

Description

A set of six square acrylic or glass jars with sampling taps for jar test, supplying uniform mixing and easy collection of supernatant from the same depth.

Technical specification

Packing	Foam carton

Standard Accessories

- Sampling taps

Square jars reduce vortexing and improve mixing compared with round beakers. The side tap allows clear water to be drawn off without disturbing the settled floc.

Features
