Product name:	Product code:
Quartz Fluorescence Cuvette Set Four Window	CMI-NP-0076

Description

A set of four window quartz cuvettes for fluorescence measurement, with polished faces on all sides for spectrofluorometers and fluorometers.

Technical specification

Caps	PTFE

Standard Accessories

- PTFE caps

All four sides are clear so excitation and emission beams can pass at right angles. Quartz gives good transmission in the UV region for sensitive measurements.

Features

- Fused quartz with four polished windows
- UV transparent from 200 nm
- 10 mm path length
- Supplied with caps

Technical Specifications

Material	Fused quartz
Path length	10 mm
Volume	3.5 ml
Windows	4 polished
Wavelength	200 to 2500 nm
Number in set	2 nos.
