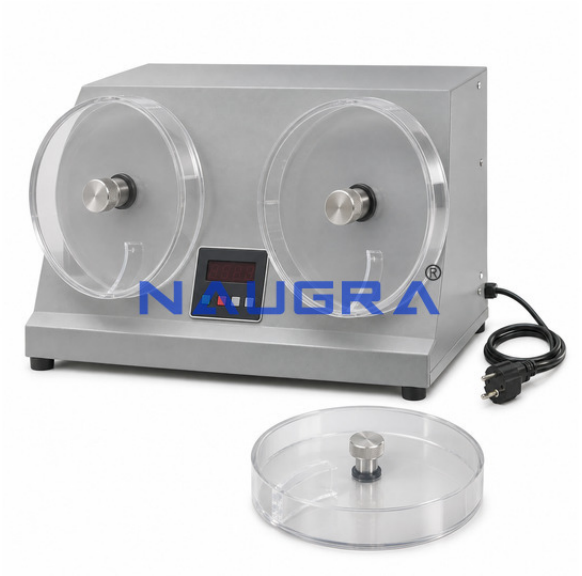
Product name:	Product code:
Double Drum Friability Test Apparatus	CMI-NP-0078



Description

A twin drum friability apparatus that tests two samples at once, with digital counter and timer for tablet abrasion tests in pharmaceutical quality control.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Spare drum

Two transparent drums turn together at standard speed, so a sample and a repeat can be tested in one run. This reduces testing time.

Features
