Product name:	Product code:
Single Drum Friability Tester Roche Type	CMI-NP-0080

Description

A single drum Roche type friability tester that rotates tablets at 25 rpm for 100 revolutions to measure abrasion and breakage in uncoated tablets.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Tablet sample bag

The transparent drum tumbles tablets and lifts them with a curved baffle so they fall repeatedly. The weight loss is used to judge tablet strength.
