Product name:	Product code:
Ozone Fumigation Chamber for Laboratory	CMI-NP-0083

Description

An ozone generator based fumigation chamber used to disinfect instruments, tools and laboratory ware without chemicals, with ozone destruction before opening.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Shelves (2 nos.)

Ozone gas is produced inside the sealed chamber for a set time, killing bacteria and fungi. A catalyst then breaks it down to oxygen before the door unlocks.

Features
