

Product name:
Powder Funnel

Product code:
CIVIL-FNL-159-0005

Description

Powder Funnel

Technical specification

These Polypropylene Funnels are best for transferring powdered reagents.

These funnels are steam autoclavable.

The unique feature of these funnels is its parallel stem that minimizes bridging of powder.

Use with 11 cm filter paper.

Material: Plastic

Diameter: 80 mm

Stem opening: 12.5 mm

Stem length: 30 mm
