Product name:	Product code:
Stored Grain Insect Fumigation Chamber	CMI-NP-0085

Description

A gas-tight fumigation chamber for treating grain, seed and herbarium specimens against insect pests, used in agricultural and food research laboratories.

Technical specification

Leak test	Pressure decay tested

Standard Accessories

- Shelves
- Gas tubing

The chamber has a gas inlet, leak-proof door and exhaust scrubber so fumigants act safely and are removed after exposure. It is used in plant protection studies.
