Product name:	Product code:
Digital Slide Warming Table Histology	CMI-NP-0097

Description

A digital slide warming table with flat aluminium plate for drying and flattening tissue sections on glass slides in histology and pathology laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Slide rack

The even plate temperature stays below the paraffin melting point to avoid damage to sections. It is used after floating ribbon sections on water.
