NAUGRA®

Product name:	Product code:
Tissue Floatation Water Bath	CMI-NP-0099

Description

A small thermostatic water bath for floating paraffin tissue sections to remove wrinkles before mounting on slides, used in histopathology laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Section lifter

The bath keeps water at 40 to 50 deg C so ribbon sections spread out flat. A dark base provides contrast for viewing white paraffin ribbons.
