
NAUGRA[®]

Product name:
Dental Surgical Microscope

Product code:
CIVIL-SUR-163-0005

NAUGRA[®]

Description

Dental Surgical Microscope

Technical specification

LED Illumination System: 150,000 LUX with 50,000 Hours of Life

True Coaxial Through-the-Lens Illumination

Red Free Filter Standard (Yellow and Green Filter)

Head Descriptions:

Fixed 45°: This head does not move, it is fixed at a 45° angle.

0 - 220°: Is a head that goes from 0° to 220°. It has an interpupillary distance lever which can be manipulated by turning the knob (nice feature), also has fold down rubber eyecups.

Extender and Rotation Device:

The Extender and Rotation Device allows the user to change the direction of the optic pod of the microscope while keeping the binocular head in a fixed position. This allows the user to pan left and right to view different quadrants of the mouth without changing their ergonomic positioning.

Truly revolutionizes the way the Dental Microscope performs and operates. offers six levels of magnification, Apochromatic Lenses for superior optics, the brightest LED Illumination on the market and is exceptionally designed for superior maneuverability and performance.
