Product name:	Product code:
Forced Air Bacteriological Incubator	CMI-NP-0102

Description

A bacteriological incubator with fan assisted air circulation for faster recovery after door opening and uniform temperature through the chamber.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Shelves (4 nos.)

The internal fan reduces hot and cold spots, so cultures on different shelves grow under similar conditions. It suits laboratories running many plates daily.

Features

NAUGRA®
