
NAUGRA[®]

Product name:
ENT Surgical Microscope

Product code:
CIVIL-SUR-163-0006

NAUGRA[®]

Description

ENT Surgical Microscope

Technical specification

Red free filter standard.

Large selection of Accessories available.

Lifetime Warranty on Optics and Mechanics.

Head Descriptions:

Fixed 45°: This head does not move, it is fixed at a 45° angle.

0 - 220°: Is a head that goes from 0° to 220°. It has an interpupillary distance lever which can be manipulated by turning the knob (nice feature), also has fold down rubber eyecups.

Extender and Rotation Device:

The Extender and Rotation Device allows the user to change the direction of the optic pod of the microscope while keeping the binocular head in a fixed position. This allows the user to pan left and right to view different quadrants of the mouth without changing their ergonomic positioning. The extender is acceptable when performing upright ENT surgery otherwise it can be cumbersome. ie, when looking at ears

most economical, high-quality ENT Microscope with 3 Levels of Magnification, Apochromatic Lenses for superior optics, standard 150,000 LUX LED illumination and a specially engineered Gas Piston Pantographic Arm for superior maneuverability.
