Product name:	Product code:
Water Jacketed Laboratory Incubator 150 Litre	CMI-NP-0108

Description

A water jacketed incubator that holds temperature stable for long periods and during power cuts, used for cell and tissue culture and sensitive microbiological work.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Shelves (3 nos.)

The water jacket around the chamber stores heat, giving even temperature and slow cooling. The incubator suits long term cultures and stability studies.

Features
