Product name:	Product code:
Fully Automatic Kjeldahl Nitrogen Distillation System	CMI-NP-0109

Description

A fully automatic Kjeldahl distillation system with programmable alkali and water dosing, automatic boric acid addition and optional titration for high sample throughput.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Distillation tubes
- Receiver flasks

The user inserts the digested tube and starts the programme, and the system does the rest. It is used in food, feed and agricultural laboratories analysing protein by nitrogen content.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Automatic reagent dosing
- Programmable steam time
- Safety door interlock
- Titration module option

Technical Specifications

Distillation time	Approx. 4 minutes
Steam	Direct steam generation
Reagent pumps	Alkali, water, boric acid
Recovery	99.5 percent or better
Control	Microprocessor with touch screen
Sample tube	250 ml
