Product name:	Product code:
Ducted Laboratory Fume Hood 1200 mm	CMI-NP-0120

Description

A ducted chemical fume hood with 1200 mm width, epoxy worktop and exhaust blower connection for safe handling of toxic and volatile chemicals in chemistry laboratories.

Technical specification

Lighting	LED

Standard Accessories

- Water tap
- Exhaust blower

Air is pulled through the open sash and out through a duct to outside. It protects users from fumes, and its sash can be lowered for safety.
