Product name:	Product code:
Blister Pack Leak Test Apparatus	CMI-NP-0130

Description

A vacuum based leak tester with transparent chamber for checking blister packs and sealed pouches, showing leaks by rising air bubbles in a dye or water bath.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Vacuum tubing

Packs are submerged in the chamber under vacuum and any leak produces bubbles. It is used in pharmaceutical packaging quality control.
