Product name:	Product code:
Bottle Cap Pressure Leak Tester	CMI-NP-0131

Description

A pressure type leak tester for bottles, containers and caps, which applies compressed air to a sealed container under water to detect cap and neck leaks.

Technical specification

Test time	Adjustable

Standard Accessories

- Air hose
- Bottle clamps

The bottle is clamped and pressurised while immersed in a water tank. Bubbles from the neck or closure show seal weakness.
