Product name:	Product code:
Magnetic Stirrer with Heating and Temperature Probe	CMI-NP-0137

Description

A heating magnetic stirrer with external temperature probe controlling the liquid temperature directly, used where precise reaction temperature is required.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Temperature probe
- Probe stand
- Stirring bar

The probe in the beaker feeds back to the controller to hold the sample temperature steady. This avoids overshoot seen in plate-only control.

Features

NAUGRA®

- External probe control
- PID temperature control
- Digital displays
- Timer function

Technical Specifications

Capacity	10 litres
Temperature range	Ambient to 340 deg C
Probe accuracy	+/- 0.5 deg C
Speed	100 to 1500 rpm
Plate	Aluminium, 135 mm
Timer	Up to 99 hours
