Product name:	Product code:
Micro Haematocrit Centrifuge	CMI-NP-0140

Description

A high speed micro haematocrit centrifuge that spins capillary tubes at 12000 rpm for determining packed cell volume of blood.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Capillary tubes
- Reader card

Capillary tubes are placed radially in the rotor and spun for five minutes. The result is read from a built-in or separate reader card.

Features
