

Product name:
Capillary Tube Apparatus

Product code:
CIVIL-FOC-114-0024

Description

Capillary Tube Apparatus

Technical specification

The apparatus comprises a metal frame holding six capillary tubes of different bores vertically in a trough.

Overall height of frame: 90mm

For demonstrating the relationship between capillary pressure and the bore diameter of the capillary tube.

The trough is filled with water and the difference in height of the resulting columns of water is immediately clear.

Length of capillary tubes: 150mm.

Length of capillary tubes: 150mm.

Overall height of frame: 90mm
