Product name:	Product code:
Horizontal Tube Furnace 1200 Deg C	CMI-NP-0160

Description

A horizontal tube furnace with 1200 deg C maximum and alumina tube for heating samples in controlled atmosphere, used in materials and research laboratories.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Alumina tube
- End flanges

Samples are placed in the tube and heated with gas flow if required. It supports annealing, calcination and thermal decomposition studies.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Quartz or alumina tube
- Gas inlet and outlet fittings
- Programmable controller
- Split design for easy tube change

Technical Specifications

Max temperature	1200 deg C
Tube	50 mm OD, 600 mm length
Heated zone	300 mm
Accuracy	+/- 3 deg C
Heater	Kanthal, 3 kW
Controller	Programmable PID
