

Product name:
Linear Air Track Premium

Product code:
CIVIL-FOC-114-0038

Description

Linear Air Track Premium

Technical specification

Suitable for elastic and inelastic collisions, momentum, speed and acceleration measurement.

A superb quality air track made from a square section aluminium extrusion with supporting "U" channel.

Linearity is +/- 0.03mm.

The track is supplied with two carts and a standard accessory set.

The track rests on three rubber feet, two of which can be adjusted.

Each side has a scale graduated in mm.

Dimensions (L): 2 metres.
