

Product name:
Demonstration Motor

Product code:
CIVIL-ELC-115-0008

Description

Demonstration Motor

Technical specification

The motor is mounted on a robust wooden base with acrylic end plates with 4mm sockets and comes complete with ceramic magnets and yoke.

This demonstration motor comes ready assembled, with an open construction which clearly shows the design working parts of a simple motor.

Requires a 1 -3 Volt DC laboratory power supply (not included).

Overall Dimensions (L x W x H): 125 x 75 x 60 mm.
