Product name:	Product code:
Multi Tube Vortex Shaker 60 Tubes	CMI-NP-0209

Description

A multi tube vortex shaker with platform and rack for mixing up to sixty tubes at once, used for pooled sample processing and extraction.

Technical specification

Standard Accessories

- Tube rack
- Platform

The platform shakes a whole tube rack with orbital action. It saves time when many tubes need uniform mixing.

Features

- Platform for tube racks
- Variable speed
- Timer and digital display
- Strong motor
