Product name:	Product code:
Soxhlet Extraction Thimble and Accessory Set	CMI-NP-0215

Description

A set of cellulose extraction thimbles with glass beads, support and spare glass joints for Soxhlet units, used to continue regular fat and oil extraction work.

Technical specification

Packing	Carton

Standard Accessories

- Joint clips

Thimbles hold the sample inside the extractor and allow solvent to pass freely. The set gives a ready supply of common consumables and fittings.
