Product name:	Product code:
Mini Rotary Tablet Press 8 Station	CMI-NP-0216

Description

An 8 station mini rotary tablet press for small batch production and formulation trials, giving more consistent tablets than single punch machines.

Technical specification

Power supply	230 V AC, 50 Hz

Standard Accessories

- Punch and die set

A turret with eight punch pairs rotates and compresses powder continuously. It is used in pharma development and teaching to show rotary press principles.
