Product name:	Product code:
Powder Flow Tester Hall Flowmeter Funnel	CMI-NP-0221

Description

A flowmeter funnel with stand to measure the flow rate of powders and granules through a standard orifice, used to judge flowability of formulations.

Technical specification

Standard	As per pharmacopoeia practice

Standard Accessories

- Orifice set
- Stopwatch

A weighed amount of powder is timed as it flows through the funnel. Faster flow is an indicator of better powder flow for tablet and capsule filling.

Features
