Product name:	Product code:
Cross Flow Tray Dryer	CMI-NP-0227

Description

A cabinet dryer in which heated air flows horizontally across the trays for uniform drying of wet solids. Used in food, chemical and pharmacy labs for drying small batches evenly.

Technical specification

Material	SS 304 chamber
Controller	Digital PID
Supply	230 V AC 50 Hz

Standard Accessories

- Set of SS trays
- Spare gasket

Air is heated and blown through side ducts so each tray receives the same airflow. A digital controller maintains temperature during the drying cycle.

Features
