NAUGRA®

| Product name: | Product code: |
| --- | --- |
| Vacuum Tray Dryer | CMI-NP-0231 |

## Description

A vacuum cabinet dryer with heated shelves for drying heat sensitive materials at low pressure. Used in pharmaceutical and chemical laboratories to dry samples at reduced temperature.

## Technical specification

| | |
|---|---|
| Heater | 2 kW |
| Material | SS 304 |
| Supply | 230 V AC 50 Hz |

**Standard Accessories**

- Vacuum pump
- Vacuum tubing

The sealed chamber is evacuated by a vacuum pump while hot shelves supply heat by conduction. Lower pressure allows drying at lower temperature, protecting sensitive products.

**Features**

- Sealed chamber with heated shelves
- Vacuum gauge and valve
- Digital temperature controller
- Silicone door gasket
- Suitable for heat sensitive products

**Technical Specifications**

| | |
|---|---|
| Chamber volume | Approx. 70 litres |
| Shelves | 4 nos heated |
| Shelf size | 300 x 400 mm |
| Temperature range | Ambient +10 to 150 deg C |
| Vacuum | Up to 700 mm Hg |
