NAUGRA®

Product name:	Product code:
Refrigerated Water Bath	CMI-NP-0233

Description

A water bath with a built in cooling unit that holds temperatures below ambient as well as above it. Used for temperature controlled reactions, viscosity tests and enzyme work.

Technical specification

Heater	1 kW
Display	Digital
Supply	230 V AC 50 Hz

Standard Accessories

- Lid
- Tube rack

A compressor and heater work together to hold the bath temperature. This allows tests at low temperatures. It is used in chemistry and food laboratories.

Features
