

Product name:
Oscilloscope Dual Trace/Channel

Product code:
CIVIL-SUND-119-0014

Description

Oscilloscope Dual Trace/Channel

Technical specification

When magnified by 10, the sweep speed is 20nS/DIV/ This Oscilloscope employs a 6 inch rectangular type cathode ray tube with red internal graticule. Dual channel 20MHz oscilloscope with maximum sensitivity of 5mV/DIV. The time base provides a maximum sweep time of 0.2uS/DIV. Microphone included. Specifications: 20MHz Dual channel CH1 & CH2 Independent Channels CH1 signal output High Sensitivity 1Mv?DIV High- Speed Sweep Algebraic Addition and Subtraction 5mV/div sensitivity on both channels Two waveforms in different frequency can be observed via alternative trigger function
