

Product name:

Dial Caliper

Product code:

CIVIL-MES-124-0014

Description

Dial Caliper

Technical specification

150mm Dial Caliper fulfills all your measuring needs and wants. The body is made from high quality hardened stainless steel. The measurements are laser engraved and in metric. Shockproof dial provides added peace of mind and security. Effortlessly measures inner diameter, outer diameter, depth, and step function. Wear resistant chrome plating for added durability and lifetime of the dial caliper. Product also includes a plastic protective case for transport and protection.

150mm Dial Caliper

Hardened Stainless Steel

Laser engraved metric measurements

Measures inside diameter, outside diameter, depth, and step function

Shockproof dial for added durability
