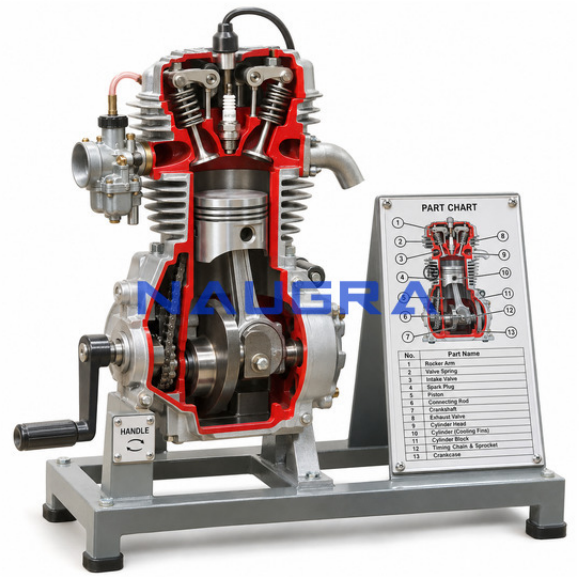
NAUGRA®

Product name:	Product code:
Cut Model of Four Stroke Petrol Engine	CMI-NP-0265



Description

A cut section working model of a four stroke engine showing the piston, cylinder, valves and crankshaft. Used in automobile and mechanical labs. Features include cut cylinder, head and crankcase, moving piston and valves and hand crank operation.

Technical specification

Operation	Hand rotated
Mount	MS stand
Material	Aluminium alloy and steel
Weight	Approx. 25 kg

Standard Accessories

- Part chart
- Handle

The engine is cut so the moving parts can be seen as the crank is turned by hand. It helps in understanding the four stroke cycle.
